Building Today
for a Better Tomorrow

AC BUILDTECH LTD
BUILDING TRUST SHINE

QUALITY POLICY

AC BUILDTECH LTD.

AC Buildtech Ltd. is committed to delivering excellence in Engineering, Procurement, and Construction (EPC) by executing projects that are safe, structurally durable, and delivered on schedule to the highest engineering standards. Quality is built into every phase of our operations—from procurement and engineering design to on construction and handover.

Core Commitments

Compliance & Standards: Strictly adhere to project technical specifications, contract agreements, statutory regulations, and national building codes (IS / IRC / NBC).

Quality Management System: Maintain and continually enhance a quality framework aligned with **ISO 9001:2015**.

Certified Materials: Source materials (steel, cement, aggregates, MEP items) exclusively from vetted suppliers with verified test certificates (MTC) and mandatory third-party lab testing.

Testing & Inspection Rigor: Execute all site activities strictly in accordance with approved Inspection & Test Plans (ITPs), standard checklists, and method statements.

Right First Time: Foster a "Right First Time" operational culture to minimize rework, eliminate material wastage, and optimize project costs.

Skilled Execution: Continuously up-skill engineers, supervisors, and subcontractors to uphold craftsmanship and site safety standards.

Measurable Objectives

1. Maintain rework costs below **1.5%** of total project contract value.
2. Achieve **zero critical non-conformance (NCRs)** at final client handover and snag-list closure.
3. Ensure at least a **95% first-pass acceptance rate** on all raw material quality inspections.
4. Maintain a client satisfaction rating of **90% or higher** across all executed projects.
